Denodo Platform 8.0 Certified Administrator Associate Exam Guide

1. Introduction

The Denodo Platform 8.0 Certified Administrator Associate (DEN80EDUCSA) exam is intended for IT administrators who understand the concepts and fundamentals needed to install, manage and maintain their Denodo deployments.

DEN80EDUCSA aims to provide organizations that use Denodo Platform 8.0 with a means of identifying suitably qualified staff to administer and operate Denodo deployments.

2. Denodo Resources

Denodo Education Services provides the tools to gain expertise in data virtualization. Denodo proposes three steps to success: starting with the free content available in the Denodo Community, followed by access to Denodo training courses, and finally, achieving Denodo certification.

Denodo Community

The Denodo Community is where customers, partners, and users have access to information that can help them learn about the Denodo Platform and data virtualization. To start learning about data virtualization and the Denodo Platform, we recommend that you follow these steps:

1. Complete the tutorials. These tutorials offer the first steps to learning about data virtualization and the Denodo Platform.
2. Watch the how-to videos. These videos offer guidance on specific topics to help broaden your knowledge.
3. Explore technical articles in our knowledge base.
4. Gain deeper knowledge with the help of our official manuals.

Denodo Training

We recommend that professionals looking to achieve Denodo certification attend Denodo training courses. For more information, visit the Denodo Education Site.

The following training courses will prepare you for this exam:

1. DEN80EDU01ABDS: Introduction to Data Virtualization
2. DEN80EDU02ABDS: Denodo Essentials
3. DEN80EDU17S: Denodo Platform Installation
4. DEN80EDU18S: Denodo Operations Management
5. DEN80EDU21S: Denodo Security Management

3. Denodo Certification

Location

This exam can be taken anytime, anywhere. You will need a computer, an Internet connection, and a webcam. Unfortunately, we do not offer exams delivered in test centers.

The Denodo Certified Associate program offers exam taking with an approved webcam, through Mettl's online proctored services. Before accessing the exam, please check your system compatibility.

Eligibility

Exam eligibility is valid for one year from date of purchase, and there are no extensions for any reason. If the exam is not scheduled before the eligibility expires, the fees will be forfeited.

Retake Policy

The examinee is eligible for one attempt per exam registration. If he or she does not pass on the first attempt, the examinee must wait two weeks after the last failed attempt to take the exam again. The exam can be taken three times in one year from the date of the first attempt. Retakes are not allowed after the successful completion of a test.

Exam Results

The exam results include a score summary report that contains the pass/fail status, topic area performance, and the final score. In order to maintain exam integrity, the answers will NOT be provided. Exam results are sent no later than two weeks after examinees complete and submit his or her exam.

Characteristics

This exam is based on Denodo Platform 8.0. It is comprised of 40 multiple choice questions, to be completed within 90 minutes. The passing score is 72%. The exam is in English.
